SECURITY-LEVEL ATTRIBUTION (R5 CLASS)

Performance Commentary for the Quarter Ended December 31, 2025 (Attribution vs. MSCI ACWI Index)

- From a sector allocation perspective, overweight allocations to the Health Care and Information Technology sectors and an underweight allocation to the Industrials sector contributed to relative performance. Conversely, an overweight allocation to the Consumer Staples sector and an underweight allocation to the Materials sector detracted from relative performance.
- Security selection in the Information Technology and Financials sectors detracted from relative performance. Conversely, security selection in the Communication Services and Consumer Discretionary sectors contributed to relative performance.

Effective November 15, 2024, the Fund was reorganized into the American Beacon Ninety One Global Franchise Fund.

Because the Fund may invest in **fewer issuers** than a more diversified portfolio, the fluctuating value of a single holding may have a greater effect on the value of the Fund. Investing in **foreign markets** may involve heightened risk due to currency fluctuations and economic and political risks. To the extent the Fund invests more heavily in particular sectors, its performance will be sensitive to factors affecting those sectors. **Information Technology sector** companies may face intense competition and rapid product obsolescence; have limited product lines, markets, financial resources or personnel; and lose patent, copyright and trademark protections. The Fund's incorporation of **environmental, social and/or governance (ESG)** considerations in its investment strategy may cause it to underperform funds that do not incorporate these considerations. The Fund participates in a **securities lending** program. Please see the prospectus for a complete discussion of the Fund's risks. There can be no assurances that the investment objectives of this Fund will be met.

Important Information: All investing involves risk, including possible loss of principal. Indexes are unmanaged and one cannot invest directly in an index.

A portion of fees charged to the R5 Class of the Fund has been waived since Fund inception. Performance prior to waiving fees was lower than actual returns shown for periods when fees were waived. Specific information about any Fund may be found at americanbeaconfunds.com or in the prospectus.

1. The MSCI® ACWI Index is a market capitalization-weighted index designed to measure the investable equity market performance in developed and emerging markets. Certain information contained herein (the "Information") is sourced from/copyright of MSCI Inc., MSCI ESG Research LLC, or their affiliates ("MSCI"), or information providers (together the "MSCI Parties") and may
