Performance shown is historical and is not indicative of future returns. Investment returns and principal value will vary, and shares may be worth more or less at redemption than at original purchase. Performance shown is as of date indicated, and current performance may be lower or higher than the performance data quoted. The strategy employed by the Fund's sub-advisor has the potential for more volatility than broad market averages, which may result in significant fluctuations in the Fund's short-term returns, both positive and negative. SECURITY-LEVEL ATTRIBUTION (R5 CLASS)

Performance Commentary for the Quarter Ended March 31, 2026 (Attribution vs. S&P 500 Index)

Security selection – negative / Sector allocation – negative

- Security selection in the Financials, Communication Services and Consumer Discretionary sectors detracted during the quarter. Conversely, security selection in Information Technology sector contributed.
- From a sector allocation perspective, null-weight allocations to the Energy and Consumer Staples sectors detracted. Conversely, an overweight allocation to the Information Technology sector contributed slightly.

Because the Fund may invest in **fewer issuers** than a more diversified portfolio, the fluctuating value of a single holding may have a greater effect on the value of the Fund. Companies that the sub-advisor believes are capitalizing on **disruptive innovation** and developing technologies to displace older technologies or create new markets may not in fact do so. Investing in **foreign markets** may involve heightened risk due to currency fluctuations and economic and political risks. To the extent the Fund invests more heavily in particular sectors, its performance will be sensitive to factors affecting those sectors. **Information Technology sector** companies may face intense competition and rapid product obsolescence; have limited product lines, markets, financial resources or personnel; and lose patent, copyright and trademark protections. Investing in **Health Care sector** companies involves risk due to government regulations, product litigation, competitive forces and loss of patent protection. The Fund's incorporation of **environmental, social and/or governance (ESG)** considerations in its investment strategy may cause it to underperform funds that do not incorporate these considerations. The Fund participates in a **securities lending** program. Please see the prospectus for a complete discussion of the Fund's risks. There can be no assurances that the investment objectives of this Fund will be met.

Important Information: All investing involves risk, including possible loss of principal. Indexes are unmanaged and one cannot invest directly in an index. The strategy employed by the Fund's sub-advisor has the potential for more volatility than broad market averages, which may result in significant fluctuations in the Fund's short-term returns, both positive and negative.

A portion of fees charged to the R5 Class has been waived since Fund inception. Performance prior to waiving fees was lower than actual returns shown for periods when fees were waived. Specific information about any Fund may be found at americanbeaconfunds.com or in the prospectus.
