

American Beacon

U.S. Government Money Market Select Fund

Quarterly Fact Sheet data as of March 31, 2026

INVESTMENT OBJECTIVE

The Fund's investment objective is current income, liquidity and the maintenance of a stable price of \$1.00 per share.

KEY POINTS

- American Beacon Advisors uses a top-down approach, analyzing macroeconomic data to anticipate economic momentum shifts, inflationary trends, the shape of the yield curve and Federal Reserve policy. American Beacon Advisors strives to increase returns by actively managing the duration and quality of the portfolio, consistent with historical relationships among economic growth, inflation and the direction of interest rates.
- The Fund invests in high-quality, U.S. dollar-denominated, short-term obligations with minimal credit risk, as determined by American Beacon. The Fund invests at least 80% of its assets in obligations issued or guaranteed by the U.S. government, its agencies, or instrumentalities, as well as in repurchase agreements collateralized by such obligations and other investment companies that limit their investments to the foregoing. The dollar-weighted average maturity of the Fund will not exceed 60 days.

*Annualized. Yield is a more accurate reflection of the Fund's current earnings than total return. The seven-day yields refer to the income generated by an investment in the Fund over a seven-day period. This income is then annualized. The seven-day effective yield is calculated similarly, but the income earned is assumed to have been reinvested. The effective yield will be slightly higher than the current yield because of the compounding effect of this assumed reinvestment.

Standard & Poor's (S&P) Rating: The fund is not sponsored, endorsed, sold or promoted by S&P, and S&P makes no representation regarding the advisability of investing in the fund. The credit rating is a forward-looking opinion about a fund's potential capacity to maintain stable principal or stable net asset value. The rating is an opinion of the date expressed and not a statement of fact or recommendation to purchase, hold or sell any security. Standard & Poor's rates the creditworthiness of money market funds from AAAm (highest) to Dm (lowest). For more information on S&P's rating methodology, please visit www.standardandpoors.com and select "Understanding Ratings" under Ratings Resources on the home page.
