American Beacon
DoubleLine Floating Rate Fund

Quarterly Fact Sheet data as of September 30, 2026

INVESTMENT OBJECTIVE
The Fund's investment objective is to provide a high level of current income consistent with strong, risk-adjusted returns.

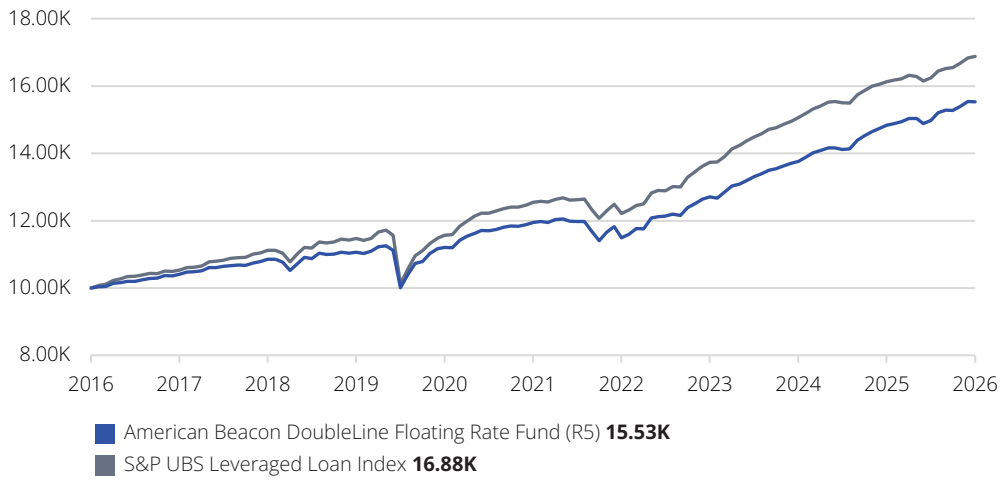

EXPERTISE IN CORPORATE CREDIT STRATEGIES
DoubleLine Capital LP, is a privately owned, employee-controlled asset management business founded by Jeffrey Gundlach and 45 colleagues in 2009. DoubleLine provides investment management services with a cardinal mandate: to help deliver attractive risk-adjusted returns to clients. The DoubleLine Floating Rate Income team's investment philosophy is centered on a value-driven approach that analyzes credits individually for attractive return characteristics and strong downside protection.

STRATEGY AND OBJECTIVES
- **Attractive Yield:** The Fund seeks floating-rate instruments of U.S. corporate issuers, broadly diversified across industry and sector.
- **A value-oriented, research-intensive approach:** The sub-advisor's approach to credit investing is both bottom-up and top-down, with the goal of minimizing credit and default risks.
- **Alpha generation:** The Fund's active management includes a highly nimble investment selection process.

The use of **fixed-income securities** entails interest rate and credit risks. **Interest rate risk** is the risk that debt securities will decrease in value with increases in market interest rates. **Credit risk** is the risk that a debt issuer will fail to make timely payment of interest or principal; the decline in an issuer's credit rating can cause the price of its debt securities to go down. In addition, **loans** are subject to the risk that the Fund may not be able to obtain the collateral securing the loan in a timely manner, and the value of the collateral may not cover the amount owed on the loan. Investments in **high-yield securities** (commonly referred to as "junk bonds"), including **loans, CLOs, restricted securities and floating-rate securities**, are subject to greater levels of credit, interest rate, market and liquidity risks than investment-grade securities. Investing in **foreign and emerging markets** may involve heightened risk due to currency fluctuations and economic and political risks. Please see the prospectus for a complete discussion of the Fund's risks. There can be no assurances that the investment objectives of this Fund will be met.

Important Information: All investing involves risk, including possible loss of principal. Indexes are unmanaged and one cannot invest directly in an index.

The Growth of $10,000 graph shows a fund's performance based on how $10,000 invested in the fund would have grown over time with dividends reinvested.

In a reorganization that closed on February 20, 2026, the Fund acquired the DoubleLine Floating Rate Fund, and certain Classes of the Fund adopted the performance history of a corresponding class of the predecessor fund. The **Y Class of the Fund** adopted the performance history of the Class I shares of the predecessor fund. The **Investor Class of the Fund** adopted the performance history of the Class N shares of the predecessor fund.

The **R5 Class** of the Fund began operations on February 23, 2026. Performance shown prior to that date for the R5 Class is that of the Y Class. The combined returns have not been adjusted for any difference between the fees and expenses of the newer Class and the historical fees and expenses of the older Class, except that the maximum applicable sales charge has been applied to the A and C Classes. To the extent the older Class had lower expenses, the resulting performance would be better than the newer Class would have realized during the same period. To the extent the older Class had higher expenses, the resulting performance would be lower than the newer Class would have realized during the same period.

A portion of the fees charged to the **Y Class** and **Investor Class** of the Fund has been waived since February 20, 2026. Performance prior to waiving fees was lower than actual returns shown for periods when fees were waived. A portion of the fees charged to the **R5 Class** of the DoubleLine Fund has been waived since Class inception (February 20, 2026). Performance prior to waiving fees was lower than actual returns shown for periods when fees were waived.

For any Class of the Fund that began operating within the 10-year/since inception period shown, the performance shown prior to the inception date of the Class is that of a class (or series of classes) previously in operation. The combined returns have not been adjusted for any difference between the fees and expenses of the Class and the historical fees and expenses of the included previous class (or classes). If the previous class(es) had lower expenses, the resulting performance would be better than the Class would have realized during the same period. If the previous class(es) had higher expenses, the resulting performance would be lower than the Class would have realized during the same period.

S&P credit ratings for long-term obligations (or issuers thereof) are AAA, AA, A, BBB, BB, B, CCC, CC, C and D in decreasing order. For example, obligations rated AAA are judged to be of the highest quality,BBB to be of medium grade, CCC are judged to be speculative and obligations rated D are in default. Obligations rated in one of the four highest categories are considered to be investment grade while all other ratings are considered non-investment grade.

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating™ based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charges, loads and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. (Each share class is counted as a fraction of one fund within the scale and rated separately, which may cause slight variations in the distribution percentages.) The Overall Morningstar Rating for a fund is derived from a weighted average of performance figures associated with its three-, five- and 10-year (if applicable) Morningstar Rating metrics. In the U.S. domiciled Bank Loan category, the American Beacon DoubleLine Floating Rate Fund (R5 Class) was rated 3 stars out of 199 funds overall. The fund was rated 4 stars out of 199 funds; 3 stars out of 189 funds and 3 stars out of 166 funds for the three-, five- and 10-year periods, respectively. Past performance is no guarantee of future results.
